

Week of May 25-30

This week we will still be continuing our work with fractions.

Monday: No work - Happy Memorial Day!

Tuesday: Go on www.zearn.com and complete as many lessons as you can in 30 minutes.

Wednesday: First, watch my video on adding and subtracting fractions. Second, pause the video on the last slide. Copy down the 6 problems on a separate piece of paper. Solve each problem and send me a picture of your work! Here is another video to help you too: https://learnzillion.com/lesson_plans/8191-add-and-subtract-fractions-with-like-denominators/lesson.

Thursday: First, re-watch my video on adding and subtracting fractions if needed. Second, complete the two math worksheets - one is adding fractions and the other is subtracting fractions. Snap of picture of them when you're done and send to Mrs. Rissman through classdojo as a student. Keep it in your folder with your other math papers. I'll post the answers on Friday. Here's a fraction website that can help you if you need it: <https://toytheater.com/fraction-bars/>

Friday: Go on www.iknowit.com and complete the adding and subtracting fractions lesson.
